Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

1. The amendment filed 05/09/07 and 11/21/07 are objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows:

The newly added limitations at page 9, line 34 through page 10, line 8 and page 10 lines 9-17 introduce new matter into the disclosure of the invention.

The amendments for the parameters being defined as the center line average (Ra), the maximum peak to valley roughness height (Ry) and the ten point height (Rz), and the new formula for the ten point height on pages 9 and 10 introduce new matter into the specification.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

2. Claims 16-19 and 22 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The original specification does not provide support for the parameters being defined as the center line average (Ra), the maximum peak to valley roughness height (Ry) and the ten point height (Rz) as now claimed in claims 16-19 and 22.

Allowable Subject Matter

3. Claims 14-15 and 20-21 have been allowed.

Response to Arguments

4. Applicant's arguments filed 1/23/08 have been fully considered but they are not persuasive.

Responding to the arguments about the new matter in the amendments to the specification, the Applicant should note that the newly defined parameters of the center line average (Ra), the maximum peak to valley roughness height (Ry) and the ten point height (Rz) in the amendments introduce new matter into the specification. Further, the new description for the ten point height (Rz) in the amendments is not supported in the original specification.

5. Applicant's arguments with respect to claims 16-19 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to HUYEN D. LE whose telephone number is (571) 272-7502. The examiner can normally be reached on 9:30AM-6:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, SINH TRAN can be reached on (571) 272-7564. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
